# NO-DIG LIVE 2010

**NO-DIG LIVE 2010 is the UK's major biennial showcase for the very best in trenchless technology. This year celebrates the 10th in the LIVE series.**

**Despite today's challenging economic climate, the current AMP 5 period until 2015 is expected to see a record £22 billion investment programme in the UK water and wastewater treatment industry. In planning these works, engineers are under ever increasing pressure to consider the environmental impact and to minimise surface disruption during the installation and refurbishment of underground services and pipelines.**

A visit to NO-DIG LIVE 2010 is a must for all engineers. This is where you will find an extensive range of products, services and innovative trenchless solutions for projects both large and small.

# A LIVE EXPERIENCE

NO-DIG LIVE is not just another exhibition - it's also a live working environment and the only forum in the UK where manufacturers and suppliers can effectively display and demonstrate products at an event truly focussed on trenchless technology.

- Come along and see many live working demonstrations of equipment on the outdoor demo area.
- Meet the experts who will be on hand to discuss the different techniques applied to trenchless technology, both on the inside and outside stands.
- Keep up to date with technology and view many new products being unveiled at the show.

# FREE BUSINESS BRIEFINGS

*Join the early morning briefings and join us for a free breakfast*

Visitors to NO-DIG LIVE can sign up to the early morning programme of breakfast seminars free of charge held each day between 0800-10.00. Discussion topics will include:

**Day 1** - Street works and their impact on the travelling public

**Day 2** - Private Sewer Transfer - Where are we now?

**Day 3** - Carbon - the environment - accounting for and reducing the site footprint

The breakfast briefings are organised by UKSTT

**Free refreshments and breakfast sandwiches will be served to all attendees!**

Note: Full programme subject to confirmation. Pre-booking for the daily sessions is essential.
