

# EUROPEAN NO-DIG 2021

UNITED KINGDOM

24 March, 2021  
Peterborough, UK

## 1st European No-Dig Conference

## Rehabilitation Design for Pressure and Gravity Pipes

# CALL FOR PAPERS

[www.1steuropeanconf2021.nodiglive.co.uk](http://www.1steuropeanconf2021.nodiglive.co.uk)

This inaugural one-day Conference will take place on 24th March 2021 at Peterborough, UK, in conjunction with the biennial No-Dig Live event. It will be a high-level Technical Conference focused on the topic "Rehabilitation Design for Pressure and Gravity Pipes". The Conference language will be English.

### SPEAKERS

Interested speakers are invited to submit extended Abstracts (not more than 400 words) in English by the submission date below, together with a brief biography of the Author. Abstracts will be reviewed by the Conference Technical Committee.

**Final date for Abstract submission: 30th September 2020**

**Notification of acceptance to Authors: 12th November 2020**

**Final date for submission of  
Conference presentation file: 19 February 2021**

**Submission of Papers for publication: 1st March 2021**

### POTENTIAL THEMES

Potential themes for the programme may include, for example:

- Comparison of convergence and differences between the main design methods used in Europe for gravity pipe lining.
- Case histories showing investigation to obtain data for design and the subsequent design process to achieve a solution.
- Design of non-circular linings.
- Design methods and key considerations for pressure pipe lining – gas and water.
- Advances in design methods.
- Durability and long-term performance of liners – how to accommodate in design.

Abstracts focused on all aspects of the primary topic (design of liners) may be submitted using the link above. All Papers presented at the Conference will be published online in a Proceedings document after the event with open access via a website. Submission of an Abstract will be considered acceptance that copyright permission has been granted to publish the Paper as described. Copyright of the Paper remains fully with the Author.
